

Hose

Hydraulic Energy Australia is a leading WA supplier of European and Australian manufactured hydraulic and industrial hose.

All hoses are manufactured in accordance with international standards such as DIN / EN and SAE. All dimensions, material and tolerances are strictly in accordance with the above-mentioned specifications.

Our range includes brands such as Manuli, Parker, Gates, Rycor, Spirstar, Polyflex and ZEC Thermoplastic to name a few.

Hoses

Our hydraulic hoses meet the below AS3791 design codes:

- ▶ SAE 100R1 ▶ SAE 100R7 ▶ EN853 1SN
- ▶ SAE 100R2 ▶ SAE 100R8 ▶ EN853 2SN
- ▶ SAE 100R4 ▶ SAE 100R12 ▶ EN856 4SP
- ▶ SAE 100R5 ▶ SAE 100R13 ▶ EN856 4SH
- ▶ SAE 100R6 ▶ SAE 100R15

Due to ever-evolving customer requirements, we can also supply hoses that meet service specific ratings and standards:

- ▶ API 16D BOP hose and API 16C choke and kill hose
- ▶ FRAS rated hoses
- ▶ Conductive and non-conductive thermoplastic hose
- ▶ Convolute and PTFE braided hoses
- ▶ Large bore (up to 12" I.D) for offshore bunkering and vessel supply hoses
- ▶ Subsea umbilicals and long-length assemblies
- ▶ Floating hoses for vessel to facility offloading and supply

Supported by our supplier partners' high production manufacturing capabilities, and with an extensive internal inventory on hand, we guarantee availability on demand.
