

Tubing

Hydraulic Energy Australia has an extensive variety of tubing to suit a wide range of pressure requirements.

Hydraulic Energy Australia has access to a selection of tubing materials for special order projects on a by demand basis.

Tubing

The following tubing is available from our inventory stock:

- ▶ 316ss cold drawn seamless tubing
 - Sizes Available: 1/8" to 2"
- ▶ Plated Steel tubing
 - Sizes Available: 1/8" to 2"
- ▶ Medium Pressure tubing - 21000 psi
 - Sizes Available: 1/4" to 1"
- ▶ High Pressure tubing - 65000 psi
 - Sizes Available: 1/4" to 9/16"

We offer tube bending, conning/threading and end adaptors if required and our experienced team provide tubing manipulation and installations both in-house and on-site.

Various levels of documentation are also available on demand.
